

Telemetry/Tracking & Command System

GS-2600-02

GS-2600-02 Telemetry/Tracking & Command System

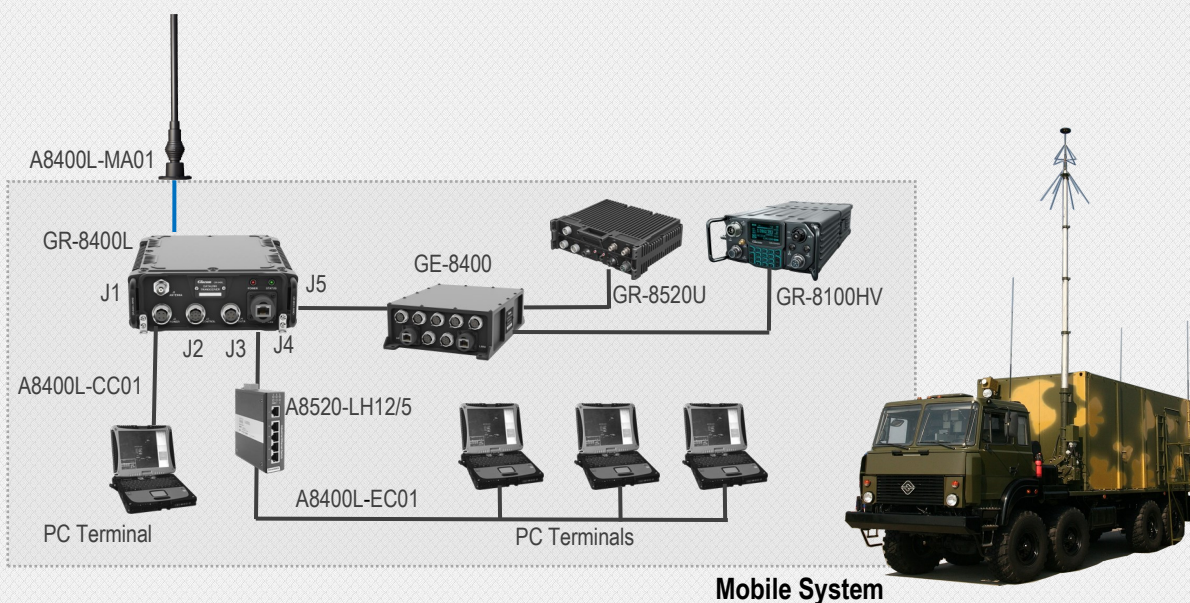

The GS-2600-02 Telemetry/Tracking & Command System provides vital communication to and from the aircraft. TTCS is the only way to observe and to control the aircraft's functions and condition from the ground. The system supports ECCM capability and modular design, and software defined radio technology to upgrade the system functions without hardware upgrading.

The standard set includes the following systems:-

- | | | |
|---------------------------------------|-------------|--------|
| • Datalink Transceiver Set (Mobile) | GR-8400L-MS | 3sets |
| • System Network Controller | GE-8400 | 3sets |
| • Datalink Transceiver Set (On-board) | GR-8400L-OS | 10sets |
| • HF/VHF Manpack Radio Set | GR-8100HV | 3sets |
| • High Capacity Data Radio | GR-8520U | 3sets |

OPTION

- | | |
|--------------------------|---------------------|
| • Ethernet Hub | A8520-LH12/5 |
| • PC Terminal | Panasonic/3rd party |
| • Signal Condition Board | A8400-SB01 |

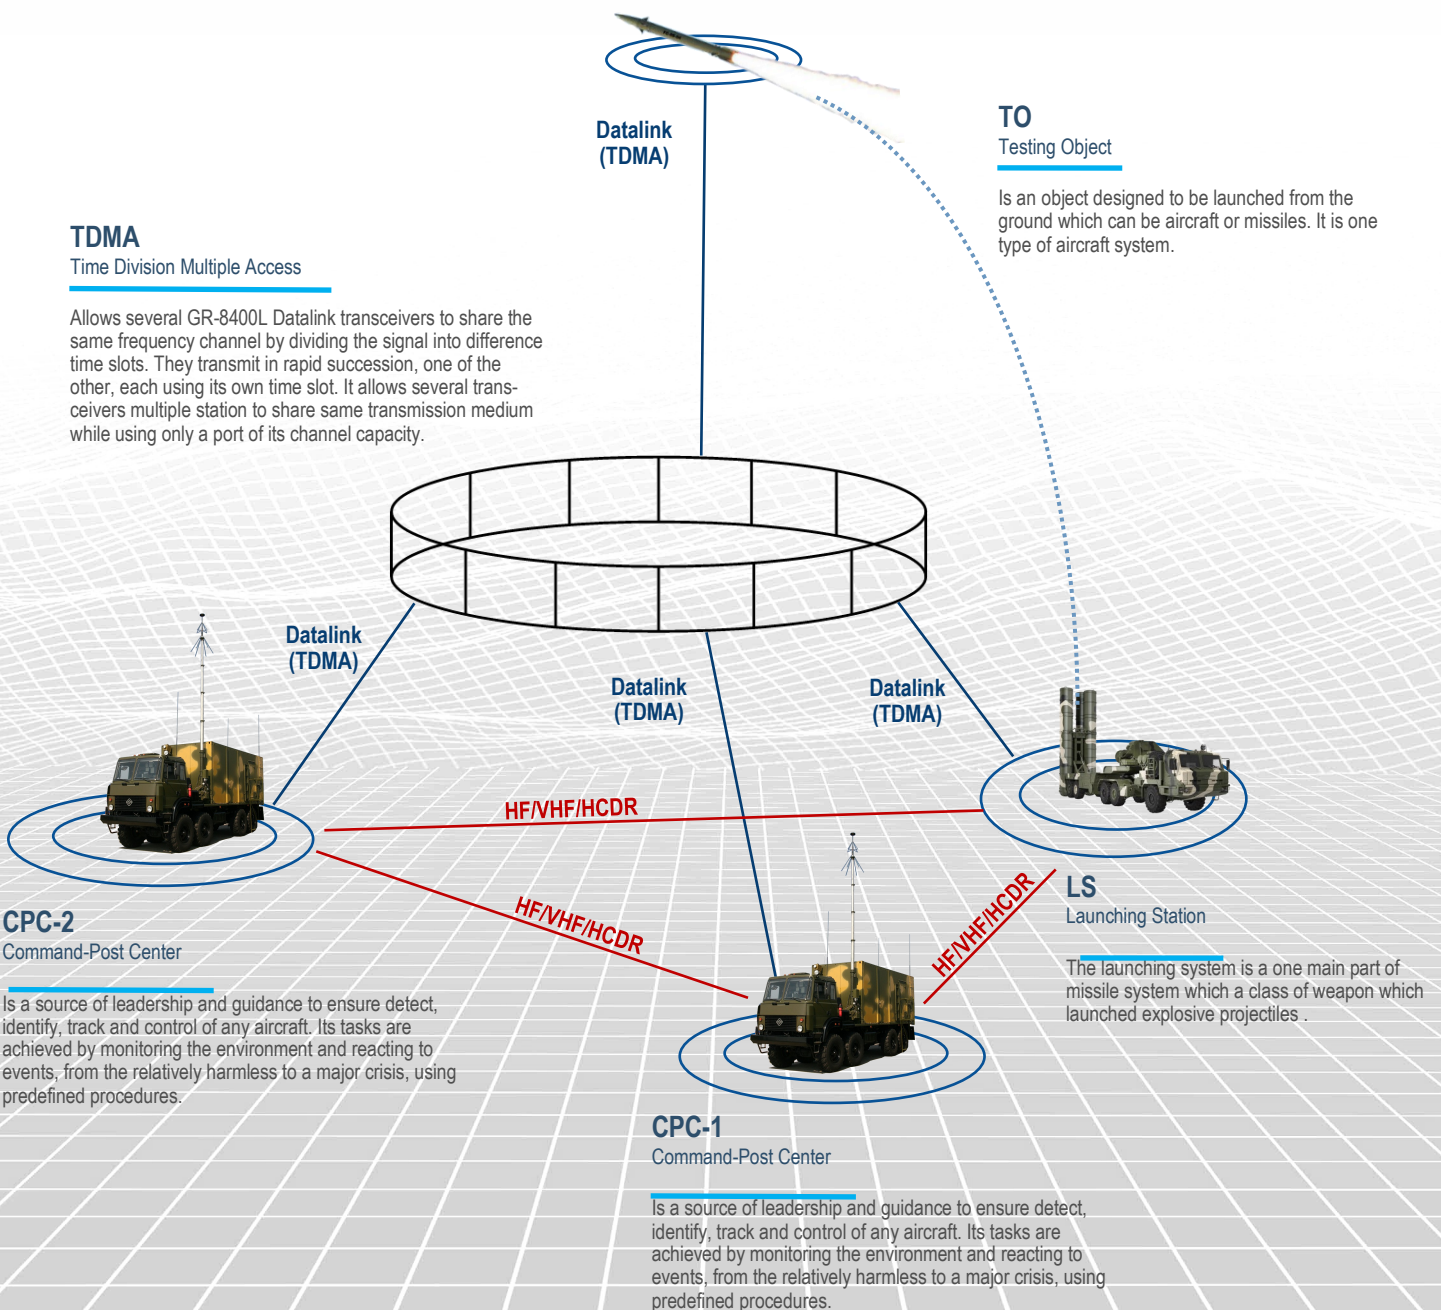

GS-2600-02 Telemetry/Tracking & Command System

TTCS

Telemetry/Tracking & Command System

Is provides vital communication to and from the aircrafts. TTCS is the only way to observe and to control the aircraft's functions and condition from the ground. The function is telemetry, tracking & command by one transceiver with TDMA technology in real-time. TTCS is the powerful tool system for development and operation for USV, UAV missiles and others. This system is compatible with ECCM, supports the real-time bi-direction. The system is very simple to install and operation.

- **Datalink(TDMA)** **GR-8400L Datalink Transceiver**
- **HF/VHF/HCDR** **GR-8100HV HF/VHF Radio, GR-8520 High Capacity Data Radio**

- Tactical manpack radio systems
- Tactical handheld radio systems
- Stationary systems
- Mobile systems
- Airborne systems
- Shipborne systems
- Soldier systems
- BMS applications

Communications solutions for anywhere, anytime in battlefield

Global Communications is a leading supplier of secure voice and data communications products, systems and networks to military, government and commercial organizations worldwide.

Glocom is an international communications and information technology company serving government and commercial markets in more than 50 countries. The company has annual revenue of over \$15 million and 200 employees—including nearly 100 engineers and scientists. Glocom is dedicated to developing best-in-class communications products, systems and services. Additional information about Global Communications is available at Glocom website www.glocom-corp.com.
